Dia Michels, Nathan Levy : 101 Things Everyone Should Know About Science before purchasing it in order to gauge whether or not it would be worth my time, and all praised 101 Things Everyone Should Know About Science:

Why do you see lightning before you hear thunder? What keeps the planets orbiting around the sun? What metal is a liquid at room temperature? Science affects everything -- yet so many of us wish we understood it better. Using an

accessible question-and-answer approach, key concepts in biology, chemistry, physics, earth and general science are explored and demystified in this award-winning book. An engaging and fun way to better your understanding of how science surrounds us every day.
