**Alphonse Moyse : 150 Ways to Play Solitaire - Complete with Layouts for Playing** before purchasing it in order to gage whether or not it would be worth my time, and all praised 150 Ways to Play Solitaire - Complete with Layouts for Playing:

0 of 0 people found the following review helpful. Great seller, even better book!By WeaverSuper cool and vintage

book that packs lots and lots of hours of fun! Pretty descriptive instructions on the 150 different games. Great for playing by yourself and looking to pass some time. So much selection and variations of games that I've never even heard of before! This book is really cool! It's much smaller than I imagined though (7" tall X 4 1/2" wide X 3/8th of an inch thick. Yeah, I measured for you guys! :) but I'm definitely not complaining! Perfect for traveling. Also A little tip, when buying this book pick up a deck of Bicycle Playing Cards while you're at it! They're great cards! 0 of 0 people found the following review helpful. Very useful book By Kay L. Lower For those old-school solitaire lovers, this book is a classic. I actually remember buying this book for a true solitaire freak (my baby brother) over 40 years ago, and it survived our house fire. So when I unearthed it in my mother's house after she died, it was like a blast from the past. And now, 15 years later I wanted one for myself. Am surprised there's no other book like this on the market. And this was written in 1950. Many of the instructions are not as clear as I would like them to be. And these books are not put together well, as, with use, the pages start to fall out. But I love it anyhow, probably because there is no other instructional option that I could find. I guess most people nowadays play on the computer. Oh well. 0 of 0 people found the following review helpful. Three Stars By Sue Sent back, it wasn't what I was looking for,

A must have guide for anybody with a love for solo card games, including the rules for one, two, juvenile and four pack solitaires. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
