PrattThe 1992 Advanced Dungeons Dragons Collector Card Set is a nicely made collection of cards filled with characters, items, templates, places, and traps from the ADD, Ravenloft, Dark Sun, Spelljammer, Dragonlance and Al-Qadim worlds. The cards are wonderfully illustrated (taken right from prior artwork) and explanations for the card's subject exist on the back of each one. My one complaint is their numbering system--they seem to be numbered in a very haphazard order with no rhyme or reason. Overall this second of three collector card series from TSR is a nice item for fantasy role-playing enthusiasts who like a bit of nostalgia.0 of 0 people found the following review helpful.
