Loads of fun, perfect for 6th graders when you have a ...By Two readersLoads of fun, perfect for 6th graders when you have a little time and need to keep them busy but lighthearted.0 of 0 people found the following review helpful. Five StarsBy Mary FreitasWe played this at a large gathering and it was enjoyed by everyone. I got many compliments about howmuch fun it was.0 of 0 people found the following review helpful. Great for a TeacherBy Shopper27I bought this set over 5 years ago and it has been a life saver. I am a teacher and use it in my classroom when I have an extra 5 minutes here and there. The students LOVE these mysteries and they are so quick to solve. The best part is that students who don't normally shine in my math class are really good at these problem solving word puzzles and it really gives them a sense of pride when they get one right. They just beg me to get them out. Also many answers are people in history which allows me to open up the discussion to some important people from our past and creates a real learning opportunity. I have used it with students from 6th grade up to 12th grade and they all love it. My family also loves to do these at the bonfire when we go camping during the summer months.

This deluxe set includes our best-selling title and its sequel creating twice the fun. Includes over 200 challenging cases for readers to solve.
