I don't care for fru-fru fluffy stuff. My taste runs to Merrell, Keene and even Redwing. However, I do admire quality craftsmanship where ever I find it (I work in the manufacturing end of the fashion industry). Caveats dispensed with, this is a fabulous gift for anyone who appreciates craftsmanship. The degree of detail you can see in each shoe is unparalleled. The photographic quality is stunning. Every line of piping, every design inset, it's all there. If you're looking for a low cost gift for a woman (or design focused person) who has everything and you think they might not even like something like this, think again. You would be hard pressed to find something else that would delight them as much as this calendar. I thought it was so great that I bought all the available copies of it at the bookstore where I found it at \$15 each. In fact, I only came here to buy more for Christnukkah gifts and noticed there were no reviews of it! I couldn't wait for the holidays and already gave one away. My friend mentions it and thanks me every time we talk. If you need a supply of pleasant and useful but inexpensive

semi-generic gifts to have on hand for the holidays, stock up on these. For what it's worth, I notice that *used* copies of last year's calendar are selling for \$149 each so it could even be an investment for resale. I know I won't be throwing mine away, it's a keeper. 0 of 0 people found the following review helpful. So fun awesome! By M. West I'm a shoe lover and have dozens of the mini collectables as well as have a closet full of shoes for every occasion. Just thought this calendar would be something different cute. Just received today -- speed of lightening shipping! -- and this calendar is fantastic! A conversational piece for sure and just fun to have around. Plenty of room for notes in the date squares. And shoes of all kinds in lovely photographic detail. Beautiful shoes. Crazy shoes. Older designer shoes. Clever shoes. And outrageous shoes. This is great! Love it! 0 of 0 people found the following review helpful. 365 Days of Shoes Calendar 2010 By dksfrprtr So Inspiring. Every day I get up and look at my wall calendar and it moves me to bring more colour and artistry to my life. Sometimes it gives me a chuckle to see shoes made out of feathers or stacked absurdly high. The blurbs are educating me about the history of shoe design and the wide variety in the creations of various designers over the decades. A fab gift for anyone who avidly consumes fashion.

Glamorous. Chic. And no closet space required. This is the to-die-for calendar for insatiable shoe lovers, inspired by Linda O'Keeffe's covetable international bestseller Shoes. In gorgeous full color, here is day after day of polished pumps, elegant sandals, mile-high boots, sexy stilettos, and divine platforms. Louboutin and Lacroix, Bally and for the cover Manolo Blahnik. Each month is arranged by theme, with a large photograph at the top of the page and dozens of smaller ones in the grid below.
