(I am not a chess player, it was a gift.)0 of 0 people found the following review helpful. Very poor.By Marcelo BattiganeVery poor. He doesn't explain anything1 of 1 people found the following review helpful. One StarBy george nowowiejskiNo diagrams and no discussions. This is definitely for strong intermediate and advanced players

500 short chess games is a book that contains 500 short chess games of great grand masters of all time to educate the players with their dirty tricks and traps in the openings. Chess players usually love to know any opening traps to win the game or any winning advantage early as possible. So hereby I present 500 short games which are no longer than 20 moves per game to give better clarity on opening traps. This book doesn't concentrate on only opening traps but also tactics like Pin, Skewer etc. in those games. These games are handpicked to ensure reasonable quality in the game. This is suitable for beginners, intermediate players and advanced players as well. I've provided with game notations with player names and details about the games as well. Opening codes have been given to make it easy for you to find your opening repertoire traps, however every opening traps will give you some ideas to improve your chess game as well. This book comes handy for the coaches who want to teach students some short games and dirty tricks or any player who wants to learn chess and tactical traps. However some intermediate players/Advanced players can simply imagine the game since it is only 20 moves longer, most of the players will find it hard to imagine, hence keep a chess board or any chess board app on the device that you're going to read this from. Thereby making it easy to interpret and understand the tactics.

About the Author "Karthik PM" was born (1995) in Tamil Nadu, India. He is a young talented chess player and a chess coach! his passion towards chess made him to teach chess for talented students who cannot afford to pay fees, As per the students' requests, he has started to write books about chess for them and for all!
