AMAZING RESOURCE for experienced facilitators!By GraceOne of the BEST resources for games and processes for collaborative problem solving and ideation. If you like the book Gamestorming, you will love this fast, easy, clear format for similar games (many of the same as in the Gamestorming

book, just simplified). If you are new to these concepts and processes, I would start with the book *Gamestorming*, then get this card deck. The processes in *75 Tools for Creative Thinking* are simplified, bare bones descriptions, so the user must already understand the nuances of running workshops or collaborative brainstorms in order to know how to get the most out of the processes in this card deck. 4 of 4 people found the following review helpful. Fun and thought provoking. By blue moon 12I really like these cards, I have found them to be a bit intimidating as they seem to each card has depth and requires careful thought for implementation. I need group think for that part. I have wanted to introduce ideas at staff meetings, but we have not had extra time to explore these cards yet. I will have to get back to you on that! otherwise, they probably merit a five star rating. 0 of 0 people found the following review helpful. This creative card deck toolbox will guide the player to be creative at the different stages of any process or situation where new ideas are desired. The seventy-five tools are organized around six steps in the process: get started, look around, ask around, break it down, break free, evaluate, and select.

Ideal for a variety of professions and situations for individual as well as team creative thinking and problem solving
75 Tools For Creative Thinking is a fun and easy reference for those who need creative inspiration. *75 Tools For Creative Thinking* is an inspiring deck of 75 cards to help get the creative juices flowing, designed for anyone looking to maximise their creative and intuitive skills to come up with new ideas.
