**The Beatles, Various : Across the Universe From the Motion Picture (Pvg)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Across the Universe From the Motion Picture (Pvg):

Music printed is not from Across the Universe By soprano The sheet music in this book is not from the movie in any way-- not the same arrangements, not the same keys, etc. I bought it because I had lots of students wanting to sing the versions from the movie and ended up with another copy of music I already had in my Beatles Books. Don't waste money on this book-- you can get the entire Beatles songs for around the same price! 0 of 0 people found the following review helpful. ATU love! By Kristin Across the Universe is so good!! Great for anyone trying to play the songs. 10 of 10 people found the following review helpful. Don't bother... By E. Sousa The songs aren't in the same keys as the movie. I specifically bought it with the hopes that "If I Fell" would be

in the same key that Evan Rachel Wood sang it in, and it's not. :o(
