The Beatles : Across the Universe: Original Keys for Singers (Vocal Piano) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Across the Universe: Original Keys for Singers (Vocal Piano):

This Leonard Corp. music book contains sheet music for the soundtrack of Across The Universe. The music is exactly as it appears...in the soundtrack. Unfortunately, the music of the soundtrack is not quite like the movie's versions. "Get By with a Little Help from my Friends", for example, is written as a duet in this book, but in the movie, significant parts of it are written for four or five male parts. The song of the movie's final scene, "All You Need is Love", can be found, but in the movie, it is actually a mashup of "All You Need is Love" and "She Loves

You". In any case, however, most of the music is identical to its movie counterpart, in the keys used by the actors, for vocal and piano. It's a great buy. (Additionally, with a few exceptions, the music is suitable for a baritone/tenor, or perhaps contralto). 0 of 0 people found the following review helpful. Four Stars By Howard R. Andrew Fabulous but omits "If I fell in Love with you" which is a disappointment. 4 of 4 people found the following review helpful. Just Right By P. Merkle Some reviews of varying editions of this complain that it contains different/the original arrangements. I bought this for the movie version of Let It Be. And it is indeed the movie version. Shipped well (using next week) on time. Thank you.
