Max Hardy : Advanced Bridge Bidding for the 21st Century before purchasing it in order to gage whether or not it would be worth my time, and all praised Advanced Bridge Bidding for the 21st Century:

2 of 2 people found the following review helpful. To Get the Big Picture...By LeimyI found this book at just the right time in my bridge career. I have been playing duplicate for several years now, but lessons and play have focused on learning individual conventions, until recently. I recently found a partner who really plays a specific system -- just not Standard American. Seeing the value of this approach, where you understand the specific conventions in the context of point ranges and hand shapes, I wanted a parallel guidebook for Standard American. This is it. This is not a book for a beginner. Hardy's other book, Bridge Bidding for the 21st Century, is a better place to start. But for someone interested

in creating partnership agreements around a specific A-Z system, this is it. 0 of 0 people found the following review helpful. My instructor believes Hardy offers great advice. I found the 2 books work well ...By Allen Sexton I read this in conjunction with Hardy's "Standard Bridge Bidding for the 21st Century" as part of my individual bridge lessons. My instructor believes Hardy offers great advice. I found the 2 books work well together; the point of reading both simultaneously was to incorporate some of his advanced techniques without having to unlearn some of the basics. Hardy offers many bidding examples, ending each chapter with numerous bidding quizzes and answers. 0 of 0 people found the following review helpful. It's easily the best written and edited of Max Hardy's many ...By William Campbell As the title says, this is a more advanced book, and addresses many topics necessary to move your game to the next level. It's easily the best written and edited of Max Hardy's many books. Two areas I've found particularly useful are his expansion of two-suited bids first addressed in his book "Competitive Bidding with Two Suited Hands", and the section on major suit raises covered in somewhat more depth in his book "The Problem With Major Suit Raises and How to Fix Them".

Max Hardy follows his first volume, Standard Bridge Bidding for the 21st Century, with his comprehensive second volume, including contributions by expert players Grant Baze, Marty Bergen, Fred Hamilton, Jeff Meckstroth, Mike Passell, and Eddie Wold.

"Max takes players to the next level..with clarity and style worthy of the author and teacher that he is." -- John Swanson
About the Author Max Hardy is one of the most versatile professionals in the world of bridge. Recently retired after forty years as a tournament director, he also found the time to win more than 10,000 master points. In constant demand as a lecturer, he also had more than 150 students take his intensive fourty hour bridge course. The author of more than ten books on bidding, Max is best known for promoting a five card major, forcing notrump, two-over-one forcing to game bidding system. Here he shows how even social players can keep up with the newest innovations in bridge bidding.
