Alex Pardee : Alex Pardee's Doppelgangers before purchasing it in order to gage whether or not it would be worth my time, and all praised Alex Pardee's Doppelgangers:

Zerofriends co-founder Alex Pardee returns with a collection of some of the most horrifying and iconic characters of film, video games and comics with Doppelgangers. The monograph displays a parade of serial killers, demons, aliens and psychopaths, from early film monsters in melancholy black and white to modern horrors captured in full bloody color. The freaks of cult classics rub shoulders with the slick killers of modern blockbusters, all captured with Pardee's signature deranged style and a sense of childlike delight. Nostalgia and terror mix with the blood, guts and slime that

drip from the collection's pages, but above all, Pardee's tongue-in-cheek humor shines through, with incompetent space villains and men with scissors for hands rubbing shoulders with mutating aliens, erudite cannibals, and a healthy assortment of axe murderers, demons, evil clowns and murderous tomatoes. In *Doppelgangers*, Pardee invites us to get cozy with the evil twins and dark doubles of pop culture.
