**Boris Alterman : Alterman Gambit Guide: Black Gambits 2 (The Alterman Gambit Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Alterman Gambit Guide: Black Gambits 2 (The Alterman Gambit Guide):

1 of 1 people found the following review helpful. Great book on how to play gambitsBy CustomerGreat book on how to play gambits. It starts with easy to understand gambits and builds to a solid understanding of move orders and transitions into white gambits that makes chess fun and play with an advantage if you apply lessons learned from this book. Highly recommended.1 of 1 people found the following review helpful. A BOOK EASY TO UNDERSTAND

AND AN EXPLANATION OF WHY THE MOVES ...By Constance M. LeonJUST WHAT I WANTED. A BOOK EASY TO UNDERSTAND AND AN EXPLANATION OF WHY THE MOVES ARE PERFORMED.5 of 6 people found the following review helpful. A Good Starting Place For the Gambit Player.By Tom Van Den AbellMost Gambit player like an open, more 'tactical' chess game. Alterman's Gambit guide covers most of the best known white piece gambits in enough detail for the more expert player, but also covers the basic ideas behind going down a pawn or two for the lower rated player.It was worth the investment for me, and is now a bit dog-eared from heavy use.My only quibble is that there are a few more gambits not covered in this book.Docvan

This gambit guide is no mere opening book, but also a tactical battle manual. Sharpen your tactics and learn to play dynamic attacking chess while studying the most entertaining gambits. This volume deals with various openings after 1.e4 e5, and lines covered include: Marshall Attack, Traxler Counterattack, Frankenstein-Dracula Gambit, Falkbeer Counter-Gambit and more.

This book gives you a feel for how to play these openings; how to play them well and what is important... This is a great way to conclude this series.Carsten Hansen, ChessCafe
