All the pages are connected at the top so you have to work the puzzle from the stack on the calendar. 2015 version was much better in that all pages were loose and placed in the calendar holder. I used to like to work the puzzle, then put it back on display so that I could see the date at a glance. With this new version, if you pull the page off to work, you can't display it. The display isn't sturdy enough to pop up the holder each day. 1 of 1 people found the following review helpful. Great puzzles to help re-focus the brain. By Bookworm and fam This is a great calendar. I like puzzles that make me think. Each puzzle is interesting and the perfect degree of the challenge. The solutions are on the back, so you can figure out where you went wrong. The colorful art of the puzzles is excellent and looks great on my desk. 1 of 1 people found the following review helpful. Challenging, but repetitive By Gwyneth Koenigsmark I like having a daily puzzle to do, but I am a little disappointed that it's basically just variations of the same 10 or 20 puzzles over and over.
