5 of 5 people found the following review helpful. Good fun practice. By truthfriend7 My 8 yr old has enjoyed these. We use them as an extra math practice for our homeschool. The problems are pretty easy but there are a lot of them on each page so it's a lot of practice. The pictures are fun to see after they're colored. 0 of 0 people found the following review helpful. Eh By sylwiabab It's not what I thought it was. Not very challenging and very repetitive. I think that maybe it's a better fit for a younger child. My son is 9 and he didn't find too engaging. 1 of 1 people found the following review helpful. Four Stars By Regina Rossi My grandson loves it
