From US Games : Animals of the World Card Game (Natural World Playing Card Collection) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Animals of the World Card Game (Natural World Playing Card Collection):

The quality of the artwork is pretty decent, though a few, the Gorilla in particular, just seem like the artist stopped trying. All of the birds in this deck are drawn perched, not flying, so you can't really get a good look at their wings. For now they'll do, but once I'm able to collect enough full body public domain photos of 100+ animals I'm going to have a custom deck printed to replace it. To see the video looping:

These decks feature full-color illustrations created exclusively for this special series, with a different picture on every card face. Each deck contains 54 cards. Cards measure 2-1/4" x 3-1/2".
