mainly on one guy's collection. The pictures are interesting, but as a price guide, the nominal purpose, it is worthless. For example I just bought a sign for \$25 (seemingly the going rate - there were many more available) while this "price guide" indicates they are worth \$500-\$1000. Postcards are said to range from \$25 - \$200 in value while in the real world most sell in the \$2 to \$10 range. I suggest looking elsewhere for guidance. 0 of 0 people found the following review helpful.
