book. By Zoar Books Gallery I like the way the book is divided into genre sections (Sci-fi, Mystery, etc.). Great color pictures of the covers and excellent explanations.

The humble paperback packs a lot into just a few pages, and that's without even getting into the storyline. Every imaginable genre and subject, from romance and science fiction to sleaze and the traditional western are among the pocket-sized reads you'll find in this price guide. The appealing intense, often graphic, passionate and sometimes provocative cover art of paperbacks that you can't help but love are featured in 1,000 brilliant color photos in this must-have collectors reference.
