My artistic creation describes from the first day I start to draw as a child at this present lifetime my former life unsolved issue, just about my mysterious death and life. This is an artistic creation. For me the meaning of art is the action of pouring your soul into some piece of material. Letting this material have inside of it your stamp. I think that if you will but let yourself co it. You will find out of all world hiding there inside and inside of your soul. [sic] As Dr Marilyn states, I know my English is not a common one. I have a special kind of English, since I am talking directly from the bottom of my soul. My plastic art science in this book I demonstrate one of my biggest loves of my past life - which is for plastic art. At this present I could accomplish. In this book I offer the reader to cut the images if they love them and frame and hang them on the walls. In that way they can enjoy it more. The art is manipulated photographs and painted and multimedia in nature all in hot wild colors. For those who love pop art this is a bonus. And the book is definitely one to be taken as it is offered an homage to a great entertainment figure of our history. Grady Harp, July 16 of 1 people found the following review helpful.
