Avery Cardoza : Quick Guide To Winning Blackjack before purchasing it in order to gage whether or not it would be worth my time, and all praised Quick Guide To Winning Blackjack:

1 of 1 people found the following review helpful. Excellent seller, excellent book By Chris I owned this book a while back and lost it so I bought it again. The book is laid out so it is very easy to understand. Avery walks you through every possible aspect of how blackjack works, and what to do in any possible scenario you could encounter while

playing. I haven't put it to the test at a casino yet, but I definitely plan to. Very good book and a complete step by step guide. 1 of 1 people found the following review helpful. You've got to have this book if you wanna win! By rogWow, this is a simple, easy-to-read, fun and fast format. The author, Avery Cardoza, has been banned from casinos, but he's decided to share his mathematical knowledge to help us all become winners, too. It's not a big fat book, just cuts to the chase serving the meat and potatoes of exactly what to do, how to do it, and when. A highlight of the book is the five quizzes strategically spread throughout the book. Within the 4-5 months since I bought the book, I have read it at least 4 times (because you have to if you want to learn this stuff). And, now for the results. Although I haven't gotten to the point where I'm really betting big, it's just a matter of time. I have walked away ahead roughly 80%+ of the time, by following what is in the book exactly. By using , you pay less than half of the normal retail price I paid the first time I bought it. I bought more to give as gifts. Good luck! Rog1 of 1 people found the following review helpful. Very well done! By prepperguy If you're new to blackjack this is the book for you. Read it and you will have Basic Strategy down pat. Avery Cardoza writes in a comfortable style and makes it easy for the new player.

The average blackjack player wants to learn fast and win fast, and this easy-to-read guide to winning play is just what the doctor ordered. In just 30 minutes, casual blackjack players - 95% of the estimated 125 million blackjack players in the US alone - learn the basics of play and the strategies that can make them winners. Blackjack is hugely popular because with proper play, bettors can actually have the advantage over the casino and the skill to win money - with the odds! In this guide, Avery Cardoza, the world's foremost authority on gambling, takes casual players by the hand and not only shows them how to take advantage of that edge to win money, but through professional money management techniques, how to walk away a winner! From the rules and variations, to the basic play options including surrender and insurance, readers learn how to play smart, get free comps from the casino and just have a great time while beating the casino at blackjack!

About the Author Avery Cardoza, a blackjack legend, is the world's foremost authority on gambling and a million-selling author of more than 50 books and advanced strategies. He is the founder of Cardoza Publishing, (publisher of more than 200 gaming titles.) Millions of players have learned how to play and win money at gambling following his no-nonsense practical advice.
