Sometimes it gives you that "just on the tip of your tongue" feeling. For family game night this is always a favorite. I recommend it for 5th graders up... and it is a great educational tool for developing spelling and vocabulary skills, as well as a tool for training your mind to become better at quick word associations. I LOVE THIS GAME. 1 of 1 people found the following review helpful. Fun family game. By scottie We enjoy this game. Great for developing word knowledge, but fun at the same time. Pleased with how it arrived. All pieces were present and brand new. Since it was not in original shrink wrap, got it for a great price! 21 of 21 people found the following review helpful. A Fast Paced, Fascinating, Entertaining Word Game! By Jana L. Perskie "Quickword" is one of the most entertaining word games I have seen, or played in a long time. A few weekends ago we had some friends over for dinner and they brought the game with them for some post meal fun. And we did have a blast with this fast paced, entertaining game of skill and logic. The game involves a unique number of word skills, general knowledge, strategy and playing with speed under time pressure. There are four decks of colored cards which determine the order of play. Blue cards ask the players to list all the words they can think of relating to a specific category, like "parts of an airplane." Green cards offer 6 categories and the players write one word for each, beginning with the letter indicated by the spinner on the gameboard. Pink and gray cards ask the players to perform

other word oriented tasks. Pencils, pads, timer, gameboard, cards are all included. For two or more players, age teen to adult - although I bet some precocious preteens could give you a run for your money! Highly recommended! JANA

Quickword is a fast-paced board game involving a unique combination of word skills, logic, general knowledge, and strategy. For 2 or more players, ages 10 to adult.
