**Gabi Bcker : Raven Cards Oracle Deck** before purchasing it in order to gage whether or not it would be worth my time, and all praised Raven Cards Oracle Deck:

10 of 10 people found the following review helpful. beautifully drawn and usefulBy TouchingPawsThis deck does not come with a booklet explaining each card in great detail. Instead, a few cards are included with the usual instructions, history, sample readings, etc. Because the cards are very large and very square, they are also hard to shuffle. Each card speaks for itself--a simple drawing and a comment to help answer the query posed when sorting the deck. I have found these a helpful meditative tool when drawing a card a day. They have a great weight in the hand, a good feel...and the drawings are lovely.2 of 2 people found the following review helpful. Raven Cards Oracle DeckBy mudheadI thought it would be more "in depth". Just a little too simplistic and cards are a little big to handle easily.3 of 4 people found the following review helpful. Rave Review for the Raven CardsBy Sarah B. ChamberlainThis purchase was admittedly extravagant, yet the price here was still more affordable (even with the shipping and handling) than the few local esoteric shops offering the deck. Now, I've never found a divination deck or tool set that truly felt right for me. When I was younger, I attempted to "bond" with a few different Tarot decks, rune sets, and Ogham sticks. I'd given up searching for such things years ago, and then I recently saw these cards on display at one of the aforementioned local shops. Having a personal affinity toward ravens, my interest was piqued. They were too expensive, but I found them slightly cheaper through . The deck speaks to my love of cryptic, Zen-like fragments of insight. This isn't a traditional Tarot or divinatory system; it offers a more unique, laid back, and dream-like trail of verbal breadcrumbs, at least to me; your mileage may vary. The over-sized nature of the cards are perfect for me to handle, as I have difficulty

manipulating objects with my hands. Anyone with arthritis or dexterity difficulties will appreciate these cards easy navigation. Overall, a bit pricey, but well worth it.

The raven has always played a guiding role in myth and legend. The Raven Cards reveal insightful messages for confronting today's choices. Use inspiration cards individually or in a spread. Set includes instructions and blank cards for creative use.
