I have seen the wondrous pages, and you will envy me, as though I were a victorious red and not a dirty blue! I regret nothing about buying this book, for I have purchased a guide which few fans have dared to buy! My fanatic quest is over. I can read Caboose's wisdom. It's so... stupid.This is the best ultimate fan guide... of all time.1 of 1 people found the following review helpful. A must-have for the RvB fan - just make sure you've watched through S13 first!By An JunkieWhether you've been a loyal follower of the Reds and Blues since the early days of Blood Gulch or you've only recently discovered the franchise, you're sure to enjoy this guidebook. Yes, most of the information about everyone's favorite hilariously incompetent space marines can be found at online wikis for free, but that's not the point. The point is that this book presents all of that (let's face it, often convoluted and confusing) information in a well-written, well-organized, and highly entertaining manner, while offering enough brand new material to keep readers from feeling ripped off.One giant warning: INSIDE THERE BE SPOILERS. I mean, this should be obvious from the "guidebook" title, I suppose, but from the very first pages, major series plot twists are revealed and discussed in depth without much fanfare, so if you haven't finished watching all 13 seasons of this amazing show yet, you might want to hold off on purchasing/opening this book, just to avoid ruining all the great

surprises that are still in store for you. If I have one small complaint, it is that the book focuses heavily on the Freelancer and Chorus portions of the series while treating the Blood Gulch years as little more than background information. Don't get me wrong; I love the direction and scope the storyline took in the later seasons, but I would have appreciated more content devoted especially to the series' quirky, meandering beginnings. All in all, though, this book is a must have for any true RvB fan. Makes a great gift for the holidays! 0 of 0 people found the following review helpful. Great book, be careful who you buy it from! By Britt021 Great book! Love learning about the characters of RvB. The five stars are for the book itself. The rest of this review is for the seller Green Street Books. I was super excited to get this book! I've looked at it from a friend, and wanted one for myself, but I was a little sad when I opened the package. My book arrived with a sticker on the FRONT. It could have had it on the back by the barcode or something, but the reason why this is a big deal is because when I took the sticker off carefully, it peeled the book cover. This was super irritating and upsetting. This is a brand new book and it looks terrible. I am not happy. I looked closer at the book where the sticker was, and the paper (paperback book of course) looked wrinkled, as if they used the sticker to hide damage. This seller had great reviews, so I trusted to get a nice new book, but I guess next time I will not buy anything from this seller. I suggest to buy this book from Rooster Teeth's website or from itself. It may be more money, but it would probably arrive in better condition. I already gave some seller feedback, but DO NOT buy from Green Street Books.
