**BradyGames : Resident Evil 6 Limited Edition Strategy Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Resident Evil 6 Limited Edition Strategy Guide:

Between weapon reviews and lists of skill sets that help strategize the perfect Mercenaries outcome; it's great! Sadly there isn't any additional artwork or character art concepts. Aside from the character profiles, which display the average character designs you've seen everywhere before. There is a list of enemies and weapons that depict small images beside their information. No images of stages either or what was behind their structure. Would of been nice to get a little insight into the minds behind the game. This is purely a "guide" only. Though the embroidered patches that come with it are great quality

and make up for that!0 of 0 people found the following review helpful. Cool BookBy Dale CooperAwesome book filled with great art, and an in depth look into Resident Evil 6. This is a must have for the die hard RE fan.1 of 1 people found the following review helpful. Excellent guide. Detailed walkthroughBy Gary RhodesExcellent guide. Detailed walkthrough. Only gripes are screenshots could be of better quality. And the guide is full of spoilers, unfortunately. We really don't need to know what happens in cutscenes.
