I forgot how bad old strategy guides were.... By Anubis DevilMy roommate and I were replaying the first RE and the online walk-thru's we found weren't totally helpful. I picked this up totally forgetting how much strategy guides have evolved over the years. If you don't mind reading and trying to find your way like that, it's fine. I've gotten used to detailed maps and guides, so that was a little annoying to me. We did get a good laugh out of it, and it did help us a little bit when combined with what we remembered and what we found online. 0 of 0 people found the following review helpful.
