Funky funky coolBy Xander DangerI could never turn down any artwork by Jim Mahfood, so this is another welcomed collection to my bookcase filled with the likes of Ben Templesmith, Jim Mahfood, Dave McKean, and others. If you're a fan, then you'll certainly enjoy this. There's plenty of girls, graf, and other wildly imaginative and funky stuff as you would expect!0 of 0 people found the following review helpful. He puts the fun in funkBy CustomerI've been a huge fan of Jim Mahfood aka Foodone for a while now. I love his videos and the funk he puts in his work!0 of 0 people found the following review helpful. His best art book to dateBy Chris WatermanJim Mahfood is an pure original talent. His best art book to date.

Collects the best of artist Jim Mahfood's eclectic sketchbook archives from the last 5 years into one classy volume. Mahfood's sketchbooks serve as an experimental place for the artist to really cut loose and try new things. The end results tend to be even more dynamic, thrilling, and psychedelic than his already super stylized comics and illustration work. This sketchbook/art book offers a unique look at process, trial and error, problem solving, and eventual victory over the odds and a glorious celebration of visual mayhem.
