One Star By dawnawillnot what I wanted 10 of 10 people found the following review helpful. Is the author afraid to provide a contact address? By arka The book has no information on date/place of publication, no business address at which the author, Reissa Roni, might be reached, just a blank page where this data is available in any publication When the book is opened, it is opened directly to the first of the 100 miniscule-font, complex, multi-columned pages which are incomprehensible to someone wanting to advance from keeping score on a piece of paper to using official scoring. THERE ARE NO INSTRUCTIONS WHATSOEVER ON HOW TO USE THE SCORING SYSTEM. I don't even know whom to give it to so I will RECYCLE a brand-new book and write it off as a total loss (cost of book + shipping).

100 pages of scrabble score sheets. Includes spaces for word lists, letter check-off, and board diagram, as well as scores suitable for up to 2 players.
