4 of 4 people found the following review helpful. Dated but useful.By Francis G. Biss IIQuite useful listing of collectables with some information besides being just a list of CCG (Collectable Card Games). To bad no new printings are likely now or in the future.If you are interested in older CCG or other Collectable games this is the ref. book you really need. I suppose print media is dying a slow death.0 of 0 people found the following review helpful.

great list of the ccg cardsBy Alvin Maurer Jrgreat list of the ccg cards, even individualizing within each game the lists of each edition put out. helped me find what cards i have been missing.4 of 4 people found the following review helpful. Collectible Card Game ChecklistsBy Gary KwaakI like the item. My only problem with it was the fact that it only covered a certain time peroid for the CCG that i was collecting at the time. This meant that i didn't have the entire lists of all the sagas in the CCG. Other than that it was a great help for what i was looking for. I recommend this product to others and hope they enjoy it as much as I did.
