I actually find the Brown Belt series to be just as hard as the Black Belt ones. 1 of 1 people found the following review helpful. Tougher than Black

Very difficult to complete a puzzleBy crazyrunnergirlI have purchased a couple of the Kakuro books in this series and have been very pleased. However I have found this second degree brown belt to be very difficult to complete. I have finished their Brown Belt and Black Belt books and loved them. The Black Belt book was very challenging but eventually you could complete a puzzle without doing advanced guess work. The puzzles in this book start off challenging and I can get 50-60% of the puzzle done with moderate effort. But then the puzzles just kind of go nowhere. I find myself having to look at the answers and fill in some spots to get through a puzzle. Where as in their Black Belt book with reasonable logic I could complete most of the puzzles. If you want a book that you can spend hours with on one puzzle maybe you'll like this, but I don't have the time to break out an excel spread sheet to finish a puzzle.I highly recommend the Green Belt, Brown Belt and Black Belt books in this series!!!!

We're giving you the second degree in brown-belt kakuro training! Go from good to great with these tough puzzles. Complete them all, and you'll be ready to earn your black belt.
