Conceptis Puzzles : Second-Degree White Belt Kakuro (Martial Arts Puzzles Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Second-Degree White Belt Kakuro (Martial Arts Puzzles Series):

6 of 6 people found the following review helpful. I absolutely love this series By Emily Webb I absolutely love this series. It is a good size -- easy for travel or just use at home. I use mine as a travel journal of sorts. I take it on trips and as I do each puzzle I record the date and what I did that day. Fun to look back at. I had done all the first degree books

and was excited to see the new second degree series out! The puzzles are a good size and print is easy to read. After finishing 6 of these books I am yet to find an error. I used to be a suduko player, but got bored. These books have kept my interest for quite awhile. It takes me about a year to finish each book. I've done several different books over the years and this series has been by far my favorite.0 of 0 people found the following review helpful. My fist Kakuro bookBy Laura SullivanI've only done sudoku books so I thought I'd branch out. Good quality book. Thick pages. The pages smell a little like a workshop, perhaps the ink? My Will Shortz books smell heavenly. Like a fresh off the press novel. However, this book is not one to go putting your nose in.2 of 2 people found the following review helpful. I LOVE these puzzlesBy K. WalshI haven't been able to find these puzzles in a while; I learned it as Cross Sums (in Games magazine). I found one app for Android, but there are some things you just need a pencil and paper for so I'm glad I found some books. This one was pretty easy, as is advertised.

Kakuro is fun--but if the puzzles aren't just right, newcomers can feel frustrated. This collection will ease novices into solving kakuro puzzles, helping them improve and preparing them for the next level of difficulty.
