Bernd I agree with "A Reader" I bought this book thinking I could use it to get on top of levels, get infinite ammo, etc. What I got was some pretty useless guides for Halo 1 and 2, plus a bunch of what felt like ads. If you're a die-hard Halo fan, this book might be worth buying, but otherwise I would advise steering clear of it. 86 of 88 people found the following review helpful. The rest of the book contains a history of first person shooters, and, get this, hints and cheats for OTHER

games. If I wanted to know about Half Life 2, I would have bought a book on Half Life 2. Oh, and for those really old school fans, there's a quick walkthrough of Halo as well. Even if I knew what this book was going to be, I would say avoid it. It has more crappy screenshots, and over used strategies (example: Remember that you can duel wield in Halo 2), then you can shake a stick at. Avoid buying this book. Save your money for Halo 3. 31 of 34 people found the following review helpful. what you dont know By Marco A.
