I have visited many of the places in this book and find this to be true. I love these photographs, and the quality of the book is excellent. Stunning photography from renowned photographer Anne MenkeForeword by American fashion designer Tommy HilfigerTexts by luminaries such as Peter Beard, Paul Johnson and Paul Smith explain where fashion meets culture in ethnic populations in Latin America, Europe, Asia, North America, and moreAnne Menke has traveled the world on assignment for the likes of Vogue, Harper's Bazaar, Vanity Fair, and The New York Times, usually in search of the perfect environment to shoot a fashion spread. Through this, she has discovered that these environments themselves are the origins of much of the fashion we see on the runways today and has compiled an incredible record of people and places with that in mind.

In this illustrated book with a preface by Tommy Hilfiger she curates unforgettable impressions and images, paying homage to the people, cultures and landscapes she has encountered. It's no wonder that this is one of Oprah's favorite books. 253 pages of unadulterated beauty-stunning! (GG magazine)About the Author
