**Yury Lapshun, Nick Conticello : Seven Ways to Smash the Sicilian** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Seven Ways to Smash the Sicilian:

This book teaches you how to attack the Sicilian Defence by using the Seven Deadly Sacrifices'.

From the Back Cover One of the main reasons the Sicilian is the most popular opening is that it promotes such bold

and aggressive chess. But as White it's not enough just to attack; you must do so in the right way, using the appropriate weapons. In this book Yury Lapshun and Nick Conticello introduce, categorize and analyse the Seven Deadly Sacrifices' White has at his disposal. It's impossible to play Open Sicilian positions with either colour without an intimate knowledge of these sacrifices, and by using illustrative games the authors teach you everything you need to know, including the vital skill of how to recognize when favourable sacrificial conditions arise. \*The ultimate guide to Sicilian bashing \*Covers main lines of the Sicilian \*Includes a feast of entertaining games and violent sacrifices
