**Lotte Reiniger : Shadow puppets, shadow theatres, and shadow films** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Shadow puppets, shadow theatres, and shadow films:

It is a great chapter told by Lotte using a biographical/instructional manner. It answered the questions I had about the filming process. As a stop motion animator it made me realize how much easier technology has made the animation process. Of course, Lotte and Karl and O'Brien and Harryhausen blazed the trail for us all. I recommend this book highly. I don't know much about shadow plays for I'm looking forward to reading about that too.
