The photography was very well done . If you like botanicals done creatively, this is the book for you. I was in a watercolor (botanical) class and the female students absolutely loved it. The pages are heavy, high quality paper, beautifully done. You will be blown away at what can be created with various leaves, flowers and other botanicals. I highly recommend it.9 of 9 people found the following review helpful. Simply visionary!!!By SmyrnaBearsMichel Tcherevkoff has created a masterpiece that is a botanical flight of imagination. Shoe Fleur: A Footwear Fantasy debuts an outrageous imaginary collection of botanical shoes and accessories created by photographer and artist Michel Tcherevkoff. Each virtual shoe and handbag is amazingly crafted out of numerous

photographs of a single plant or flower. The result is both organic and cutting edge. Art, attitude, romance, and nature combine in this garden of flirtatious footwear presented here in fashion's latest avant-garde offering. Bearing witty and whimsical names and captions to compliment their playful design, every shoe and handbag has a story to tell--or a secret to keep. Fashionistas will find everything they need, from the "Pre-Nup," a slipper made from the virginal white lily, to the "Miss Tress," the sole of adult discretion, to the "Tally Ho," a handbag fit for a fox hunt, to the "Frieda Kahlo," a feminine shoe with a sturdy soul--built for the road less traveled. This playful one-of-a-kind collection is packaged in a chic pink plastic slipcase with a round peek-a-boo window, and includes eight printed vellum tip-in sheets. Whether you're shoe obsessed, fashion forward, or flower powered, Shoe Fleur is an irresistible confection that will tease, delight, and perhaps inspire a few fantasies of your own...
