**From John M Samson : Simon Schuster Mega Crossword Puzzle Book #6 (Simon Schuster Mega Crossword Puzzle Books)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Simon Schuster Mega Crossword Puzzle Book #6 (Simon Schuster Mega Crossword Puzzle Books):

It kills time, but doesn't entertain. The puzzles are generally easy, but sometimes there is a cluster of obscure names in a small section of the puzzle -- as if the creator couldn't come up with anything better. Most puzzles are either themeless, or have themes lacking much interest. Someone

needs to do a better job of proofreading/checking clues, as there are too many minor errors: a singular clue matched with a plural answer (or vice versa); a clue indicating the answer is a full name, but the answer is actually just a last name; a clue indicating no abbreviation, but with an abbreviated answer; indication that a clue is part of the puzzle's theme, when it actually is not (typically because the next clue is actually the special one). 0 of 0 people found the following review helpful. A nice workout for my brain. By MLE from NJI have purchased several of this series. Love that the pages are perforated. I can take a few with me without carrying a big book. The puzzles are about as difficult as I want them. 0 of 0 people found the following review helpful. This is my favorite series of crossword puzzle books. By Barbara A. Brown This is my favorite series of crossword puzzle books. I'm actually starting the series all over again and it works fine to do so.
