I prefer Dell Acrostic but wanted to try something new. What a disappointment!!! I will not purchase again.0 of 0 people found the following review helpful. A good way to spend your time and learn interesting history and stories.By Living-in-PlanoThis is my second super crostics book and I love working the puzzles out and learning the answers to the various questions. I may google the question or look up the answer in the dictionary if I know the word but not sure of the answer. Whatever I do I learn and enjoy the search.5 of 5 people found the following review helpful. Small printBy Jorge MartinezThe pages were not scored (as stated in the book), and they cannot be torn off as the puzzles are finished, without ripping them out. Also, the print is extremely small and sometimes hard to read.

This mega-collection of 185 crostics is culled from out-of-print books in the popular Simon Schuster crostics series.
