**Djape : Sit Solve Killer Kakuro (Sit Solve Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sit Solve Killer Kakuro (Sit Solve Series):

Kakuro is like sudoku with a twist: solvers are given the sum of the digits in every consecutive group of cells, both horizontally and vertically. But in Sit Solve Killer Kakuro, the twist gets even twistier, because there's not only additionsubtraction, multiplication, and division get in on the act, too! It's great mental fun.
