Drury I heard about this game from some friends who mentioned that it was based on the old card game casino. But I was very pleasantly surprised to discover that SLOOP has lots of special action cards and more complex rules that make the game far more exciting and strategic than the old card game. The colorful build makers and build counters are great bonus features. This is the kind of game we will enjoy playing over and over and often because every round brings different card combinations so every game is fresh and unpredictable. 1 of 1 people found the following review helpful.
