The quality of the photography is good but the descriptions are short on info. The price values are unrealistically optimistic for the most part.0 of 0 people found the following review helpful.

This pictorial guide sheds light on a collectible that was in its full glory between 1948 and 1958. Depicting people, birds, animals, vehicles, and other objects, television lamps are most often ceramic, some almost porcelain quality. Ceramic lamps as well as those made of plaster, chalk, glass, metal, and wood are showcased in this book including more than 350 colour photos.
