Andrew Bussom : Two Knights A Chess Killing Machine with an Emphasis on 4 Ng5 before purchasing it in order to gage whether or not it would be worth my time, and all praised Two Knights A Chess Killing Machine with an Emphasis on 4 Ng5:

3 of 5 people found the following review helpful. If you liked "Understanding the Grunfeld" by Jonathan Rowson or "The Italian ...By Kenneth B Scott A most unusual opening book. If you liked "Understanding the Grunfeld" by Jonathan Rowson or "The Italian Gambit System" by Acers and Laven, you will love this one. The author loves his subject and it shows. The 4Ng5 version of the Two Knights Defense is covered from the viewpoint of White but is also very useful for Black. As a club player, I cannot verify the accuracy of the analysis, but if you want all the information you can get on this variation, here it is.

Would you like some thoughts from a Top rated correspondence player? The sharpness and imbalance of the Two Knights is quite challenging, and in my opinion makes this an ideal opening for a fun game of chess! This book has analysis for over 500 high-level games with coverage on every known viable defense to this series of gambits. It covers all branches of the Two Knights after 4 Ng5 with an emphasis on 8 Qf3 to also include a section on the Old Twist of 8 Bd3, suggestions for Black to handle the Old Reliable 8 Be2 lines, the Knight Flops Back 7Nxc6, Bishop on Bishop 6Bd7, the Lolli Attack, Berliner Gambit, Traxler Gambit, and explanations as to why other 4th moves are not so wise. Creativity is the hallmark of the Two Knights. But creativity also needs focus, as Mark Twain states, You cannot depend on your judgment when your imagination is out of focus. Good chess is the culmination of intricate ideas. There are numerous good ideas in this manuscript from many sources to include several creative and new ideas from the author. This is not a casual treatise on the Two Knights. It encompasses several years of research and analysis. The Two Knights is a killing machine with many creative ideas. It strongly provides each side opportunities to score a point. There have been many ideas tried, and each one is examined. As shown, some ideas are overly creative, but not all. There are deep hidden traps and surprises! To my children, and all chess players who dare to be bold - this is a legacy I desire to impart, enjoy life, enjoy chess, reach for the heights, flame the spark within your heart, and God willing, play a brilliant blazing game of life that you can cherish and share with others! The author is a correspondence chess player with a peak rating of 2243, and consistently ranked in the Top 100 in US Correspondence Chess.
