**From Schirmer/Mosel : Two Much** before purchasing it in order to gage whether or not it would be worth my time, and all praised Two Much:

1 of 1 people found the following review helpful. Original betterBy G. Camero Jr.I actually liked the first Mondino book better. This book has the same feeling of the last book, nothing new to offer. He still is edgy and avant-garde, and has great use of color. Was not as excited with these photos.

After his bestselling book *Dja vu*, Jean-Baptiste Mondino presents his equally mesmerizing sequel *Two Much*. His photographs, digitally processed pictures, and video clips radically changed the commercial strategies of the rock, pop and fashion industry and made him the image guru of the young generation. Presenting Mondinos creative output of the past five years, *Two Much* bears striking witness to the delight he takes in playing with zeitgeist expressions and to his boundless ingenuity. Technically brilliant, with an equally rich and scin-tillating mix of black humor, glamour, and

bizarre erotic visions, Two Much is an essential source of inspiration for all those who by profession or by passion deal with photography, advertising, and life style.
