This Book! (And this person *might* be a grown man...;))By MandyI actually bought this for my 50-Something Year Old Husband. He is a Closet Crafter.. managing millions of dollars by day, mining by night. It's his equivalent to relaxing with a glass of wine. He *might* fight our 8 year old for computer time to play... he *might* have gotten so tickled with himself when he figured out how to turn Zombies into Villagers, he *might* have multisheet Minecraft spreadsheets full of data, project du jour analyses and formulae for computing how many tracks he needs to build a track from one village to the next... but he will *never* admit to any of it. Neva! In fact, he will tell you he's "just helping our boy a bit and that's all."BUT. I may have gotten this book for him for Christmas this year and he *might* have squealed-stifled-by-a-manly-throat clearing every few minutes as he "uninterestedly" perused it and made notes on what he wanted to try out... I mean, his list of stuff for me to get at the store of course= beer, peanuts, baseball hat... yanno, Manly Stuff *eyeroll*.I adore seeing him completely relax as he fully engages himself in the game...watching our boy play it, I mean of course. He works hard and deserves a sublimation tool like this to check out, build stuff, kill other stuff. All very Man like activities... I keep telling him to make his own world and try it out... as I walked by him while writing this a few minutes ago, I noticed rainbow colored sheep (a tip from the book) and his avatar riding a pig (another tip.from the book). He must have shared what he had read in the book with our boy... of course he did...Two Man-Sized Thumbs Up!4 of 4 people found the following review helpful. Although I already knew most of these and you could easily find them online, it's nice to have a little physical piece of the game and it's secrets! Loved the book! A few of the secrets may have been patched or something because they didn't work, but still a great book :)
