### **Prima Games, Tim Bogenn, Rick Barba : Uncharted 4: A Thief's End Collector's Edition Strategy Guide**

before purchasing it in order to gage whether or not it would be worth my time, and all praised Uncharted 4: A Thief's End Collector's Edition Strategy Guide:

I could care less for the multiplayer portion of the game, so I wasn't really that much disappointed by the shallow coverage of the multiplayer part of the game at all. What really disappointed me was how the collectible coin was attached to the book, it was glued on the inside of the book, right on the last page, removing it, literally destroyed the pretty map that it was glued to...Shame about that, but overall a very

good game guide, a must have for any collector1 of 1 people found the following review helpful. ... Prima Games guide was Xenoblade Chronicles X which was pretty awful so I was hesitant to buy this oneBy Kevin SicatMy last experience with Prima Games guide was Xenoblade Chronicles X which was pretty awful so I was hesitant to buy this one. However this one was quite good and restored some faith in Prima Games. Uncharted is pretty straightforward so the guide wasn't really necessary to complete the game but is very detailed with a ton of maps for each area as well as showing the various paths you can take. Also the text isn't just limited to direction but is littered with a bunch of fun tidbits or explanations on events.I used the guide mainly for collecting treasures I missed and it was extremely helpful in that regard. The main maps show what treasures are located in the area and each treasure has a small box with more detailed instructions on getting the treasure. A couple were worded confusingly but overall was clear.The quality of the book itself is very good. The colors are nice and the cover is very sturdy. The bonus coin is also very nice looking and is larger than I imagined.1 of 1 people found the following review helpful. Ubcharted Charts YouBy Marc KleinReally well thought out. IT helped me solve a difficult puzzle. Granted, I had to try several times but the pattern is workable with patience. Also, it is well written listing every secret and treasure. I didn't get everything but the game itself can actually be played without using this guide and that's the point. This guide is just here to help you along the way to a 100 percent completion.
