Some were challenging but so much fun overall. My 12 yr old even took it over for a time.This #4 book is too challenging and not that much fun. The crosswords are really hard for the average person. I have given up on them completely and that is a bummer as I do love crosswords (and don't like to have to look up the answers in the back of the book for every answer).0 of 0 people found the following review helpful. Old favs and Unique puzzles!By PepsiNutI have bought several Uncle John's

Bathroom Reader Books and have had many, many hours of fun. They keep my brain/mind sharp!0 of 0 people found the following review helpful. Great MottoBy Brian ArendtI totally agree with the book's tag line:"Don't just sit there, do something!"I've gone through the first 3 books already and every one of them has been great. Very few puzzles had errors (a few phantom words in the word searches) and many of the puzzles were very challenging and required a little extra help to complete (mainly the crosswords). Worth it for sure!
