**Simon Drew : US Games Systems, Inc. Preposterous Playing Cards** before purchasing it in order to gauge whether or not it would be worth my time, and all praised US Games Systems, Inc. Preposterous Playing Cards:

0 of 0 people found the following review helpful. Fun illustrations, some usefulness By B. Hart From my son-in-law who received them: I would probably use them for slow-moving or low-intensity card games. I suggested to my son that we use them to play Thirty-One.... They would be fun for Euchre or maybe Cribbage.

Each card combines witty wordplay with wry depictions of animals in ludicrous situations. Playing cards feature

indices on all four corners, and are suitable for most card games.
