I love Luc Besson's moviesBy Claude FethiereI love Luc Besson's movies, so I couldn't wait to get this book. The artwork is absolutely amazing. Although it is an "art of" book, I am a sucker for behind the scene photos, drawings, and storyboards. I wish they printed the text in black.The light gray printing made the book difficult to read.

Rooted in the classic graphic novel series, Valerian and Laureline- visionary writer/director Luc Besson advances this iconic source material into a contemporary, unique and epic science fiction saga. Valerian (Dane DeHaan) and Laureline (Cara Delevingne) are special operatives for the government of the human territories charged with maintaining order throughout the universe. Under directive from their Commander (Clive Owen), Valerian and Laureline embark on a mission to the breathtaking intergalactic city of Alpha, an ever-expanding metropolis comprised of thousands of different species from all four corners of the universe. Alpha's seventeen million inhabitants have converged over time- uniting their talents, technology and resources for the betterment of all. Unfortunately, not everyone on Alpha shares in these same objectives; in fact, unseen forces are at work, placing our race in great danger.
