Carol Bedford : Waiting for the Beatles: An Apple Scruff's Story before purchasing it in order to gage whether or not it would be worth my time, and all praised Waiting for the Beatles: An Apple Scruff's Story:

6 of 6 people found the following review helpful. There's so much we don't know about Apple Scruffs...By Bibliophilia EclecticalI first encountered references to this book when I was looking for more information on the George Harrison song, "Apple Scruffs". I was highly intrigued and finally managed to score a copy of the book, and I'm so glad I did.What an engaging book! The photos are a delight, as are the copies of hand-written notes from George Harrison to various Apple Scruffs. If you're a George Harrison fan, this book will really give you great insight into the man, but any Beatles fan will almost certainly enjoy this unique perspective on the Fabs.The book is descriptive, I almost felt like I was there, and in many ways, I wish I had been, especially now that I've read this story.Note that there is some controversy about this book. Apparently, some of the author's claims are disputed, and her version of events has been called to question in some cases. Still, the book is a brilliant memoir of the fascinating phenomenon of Beatlemania at its most obsessive, and well worth reading.0 of 0 people found the following review helpful. I enjoyed Carol's recollectionsBy Lynn SI enjoyed Carol's recollections. I was given membership to the Scruffs in June 1970 and remember the night George Harrison gave Carol the incense.5 of 7 people found the following review helpful. more like waiting for george than beatles.By J. Aguilarthis books seems to be about a girl bragging on how she got george to like her so she could say no to him and act all shocked and surprised that he wanted her.assuming she isn't lying that is.kinda hard to believe that a beatle would come to your place and kiss you and want you and then you tell him to go to hell.why would someone stand outside in the cold for hours just to tell the man she

wants and loves that she doesn't want him?makes no sense to me.carol also pretty much just talks about her stories with george and doesn't even mention the other beatles much.esspecially the last half of the book.she doesn't even mention paul at all except once when george picked up the phone and said paul!anyways this book is pretty much about carol and her stories about george rather than about the beatles.it would be nice to see a book from another apple scruff so we can see if what they saw and heard was the same thing that carol experienced.sure meeting the beatles and having your picture taken with them is one thing.but claiming to turn down being a beatles mistress is another.and getting kissed by them and having them visit your home more than once and the telling them to go hell?in fact towards the end she seems to be rather annoyed that george wants to see her.like it's a hassle.in fact she even mentions in the end how she stops george from kissing her.so now she doesn't even want a kiss from him?makes no sense to stand out for hours and then when you get the chance many many times to just act like that.
