Wanted to buy book By Lorily Great book. I look though it all the time. It gives me a lot of places and sources of where I can sell my collectables. Great book. 13 of 13 people found the following review helpful. Updated guide to who is buying what. By Irvin Goodman This is the 1999, 7th edition of the useful guide for anything collectible you want to sell. The comprehensive item listings cover nearly 400 categories of collectibles and 250 buyers with their name, address, phone, fax, e-mail and web site in many cases. Each buyer-listing provides information regarding the items they buy and an indication of the price ranges paid. Collectibles range from action figures to lighters to wind-up toys. In addition, there are about 20 pages of buyers of misc. items. The volume is easy to use and completely indexed. Well worth the price for anyone having collectibles to sell.

This book was compiled to help put serious buyers in contact with non-collecting sellers all over the country. Most of us have accumulated things that are not particularly valuable to us but could very well be of interest to one of the buyers in this book. Not only does this convenient little book list the prices that collectors are willing to pay on thousands of items, but it also lists hundreds of interested buyers along with the type of material each is actively buying.
