Philip M. Parker : Webster's Chinese Simplified to English Crossword Puzzles: Level 1 (Chinese Edition)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Webster's Chinese Simplified to English Crossword Puzzles: Level 1 (Chinese Edition):

Even if you do not like crossword puzzles, you may end up loving these. Designed for mother-tongue or completely fluent speakers of Chinese Simplified wanting to improve their English skills, the puzzles may also be entertaining to English speakers. They are formatted so that each puzzle can be solved in 15 to 30 minutes. The vocabulary gradually

becomes harder across puzzles thus increasing the challenge as you progress. Each book has 100 puzzles and each puzzle covers some 30 word pairs (equaling 3000 challenges!). These are truly pleasant, if not addictive, crossword puzzles for language learning. Learning a language is always difficult. To ease the pain, hints are provided in small script at the bottom of each page, though these are selected to prevent an engineered solution to the puzzle. Full solutions are provided in the back of the book. These two features (hints and verifiable solutions), force the reader to decipher a words meaning and serves to improve vocabulary retention and understanding. One recent reviewer of this series noted As a Peace Corps Volunteer this is definitely a fun way to keep up the language skills The series has a whole bunch of "rarely spoken" languages, widely unknown to us in the Western world. Another reviewer notes: Good teacher as it has words listed below that are in puzzle so the clues are there if you need them. Public domain translations for Chinese Simplified contributed to Websters Online Dictionary used in these puzzles may have originated from uncited volunteers, native speakers, professional translators, field linguists and academics (not by the editor of the puzzles). If you would like citation for any translations, make suggestions, note errors, or contribute in any other way, please email Philip M. Parker at INSEAD, who will update this series from time to time. The second includes Chinese Simplified-speaking students enrolled in an English Language Program (ELP), an English as a Foreign Language (EFL) program, an English as a Second Language Program (ESL), or in a TOEFL or TOEIC preparation program. The third audience includes English-speaking students enrolled in bilingual education programs or Chinese Simplified speakers enrolled in English speaking schools. Though highly entertaining, if not addictive, this crossword puzzle book covers some 3000 vocabulary words. In this book, hints are in Chinese Simplified, answers are in English. This format is especially fun (or easiest) for people learning Chinese Simplified; the format is most instructive, however, for people learning English (i.e. the puzzles are a good challenge). Within each level, the puzzles are organized to expose players to shorter and more common words first. Subsequent puzzles mostly build on these using longer and more complicated vocabulary. Learning a language is always difficult. To ease the pain, hints are provided in small script at the bottom of each page, though these are selected to prevent an engineered solution to the puzzle. Players need to learn the meanings of the words in order to place them correctly. Full solutions are provided in the back of the book. These two features (hints and verifiable solutions), force the reader to decipher a words meaning and serves to improve vocabulary retention and understanding.
