Terry Fator : Who's the Dummy Now? before purchasing it in order to gage whether or not it would be worth my time, and all praised Who's the Dummy Now?:

0 of 0 people found the following review helpful. A Riveting Self Portrait by the World's Greatest EntertainerBy 777Sensational story telling! A tale about a sweet child who remained sweet despite being raised by a monster. A dreamer who, against all odds, with humor, prayer and hard work, manifested his dreams. Terry Fator is a great, singer, writer, showman, philanthropist, and now author.1 of 1 people found the following review helpful. Love the

title, LOVED the book!By Mom-meHis book was a VERY interesting read! It really keeps you engaged! I can only wonder why - after all the fabulous things he said about his first wife throughout the book, who supported him thru all the hard years - he left her when he found fame. But... who knows what that story is about. Maybe that's his next book. Congrats to him for keeping his self-confidence going thru all the trials his life dealt him, keeping such solid relationships with his siblings! And, then, of course... congrats to him for reaching his personal pinnacle of success thru his great talented career!0 of 0 people found the following review helpful. I love this man!! But I am really disappointed a out his behavior!By C.We recently saw Terry Fator in Las Vegas. He is so funny, and entertaining! Had to learn more about him. Purchased this book, read it in a day. Enjoyed every minute. It is fast reading, enjoyable and shed light on his journey to fame. He is truly representative of the American Dream come true. So delighted to learn of his Christianity. Explains why his show is so CLEAN!April 30, 2012, still like Terry, but after reading his book, I am very disappointed he has left his wife, for his good looking assistant in his act. He spoke so highly in book about his wife. Mentioning how supportive she has always been. why hasn't he been responsive to her in return. naughty man, how long do we give this May-September wedding? he now has the trophy, how long???

Terry Fator won the hearts of America when he won a \$1 million dollar prize on America's Got Talent. Terry is a ventriloquist, singer, comedian and celebrity impressionist. He has appeared to rave reviews on the Oprah show and David Letterman. Terry is perhaps the first entertainer to combine the art of ventriloquism with singing impressions. From the age of 6 years old Terry memorized Bill Cosby comedy routines. When he was 10 he found a library book on ventriloquism and began learning how to use his voice. This book is Terry's biography about living his childhood dream of wanting to be an entertainer.
